## Preface

Gokul Bhajan & Vedic Studies (GBVS) is a unique non-profit service organization to spread Krishna Consciousness everywhere in this world. It has no affiliation or control by any other organization. Our only goal is to practice pure bhakti under the footsteps of six goswamis and guidance of guru parampara coming under Lord Caitanya Mahaprabhu.

GBVS has a unique place in spiritual development. Under the direction and inspiration from Srila Gurudeva, Srila Bhaktivedanta Narayana Goswami Maharaja, it is positioned in such a way that children, parents, adults and devotees can all benefit by developing and growing in Krishna Consciousness. Gokul Bhajan gives the guidance to grow from a beginning stage to advanced devotees. The main purpose of this book is to help any one who is interested in developing devotion to Lord Sri Krishna the Supreme Personality of Godhead.

This hand book has two segments: (1) Gokul Bhajans (Series: E, F and G), and (2) Gaudiya Bhajans. A new aspirant starting from young stage of devotion usually gets attracted to the simple and easy gokul-bhajans, but as one grows, the taste also progresses and eventually appreciates and understand the priceless jewels from our acharyas. Thus, Gokul Bhajan & Vedic Studies is positioned as a “bridge” to develop single pointed devotion (ananya bhakti) to Sri Radha Krishna in stages and also to provide the high form of bhakti following the foot steps of our acharyas.

We hope that this book shall be helpful and fulfill the needs of those who wish to develop single pointed devotion to Lord Sri Krishna with the mercy coming from Lord Sri Caitanya Mahaprabhu.

# About Gokul Bhajan & Vedic Studies

Gokul Bhajan & Vedic Studies (GBVS) is a unique bhakti yoga satsang organization that focuses on children and families together practicing single pointed devotion to Sri Radha Sri Krishna and learning to follow devotional Vedic culture in our daily lives.

Besides our main goal of living a life enriched with devotion, we also focus on preparing the children for a suitable devotional base in life. Thus we teach them to develop good character, discipline, leadership, responsibility, effective communication, time management, task management and so on.

We help the children by giving motivation and understanding of our Vedic culture and family values and the importance of caring and loving of our parents. As they steadily progress, they shall be able to live a balanced life and eventually the devotional living becomes an integrated part in them. They learn and understand what is right and what is wrong so that they themselves can decide on the right choices in their lives.

We are an independent and registered non-profit organization.

Our satsanga is run like a school where the curriculum is planned in advance for every semester of the year. Like in a school, we emphasize commitment and regularity in attendance. As one of our main goals is to bring children and parents ‘together’ with love and devotion to Lord, regular attendance of parents with their children is very crucial.

Even though our teachings are primarily based on Gaudiya Vaishnava Siddhanta under the direction of Srila Gurudeva in the line of Lord Sri Caitanya Mahaprabhu and six goswamis, we equally honor and respect every sampradaya engaged in developing pure devotion to Sri Radha Krishna. The primary scriptures we follow are Bhagavad Gita, Srimad Bhagavatam, Sri Caitanya Caritamrita, and all the scriptures revealed by six goswamis and acharyas under Lord Caitanya Mahaprabhu.

Our sanga is open to everyone irrespective of caste, creed or religious background. Our primary focus is to develop devotion to Sri Radha Krishna Yugala.

As we have a special focus on our children, we use special methods and styles to teach them by utilizing multi-media and latest technologies.

Keeping Sri Radha Krishna at the very center of our lives is the topmost goal of our devotional lives. We meet every week and hold satsangas in our Gokul Bhavan halls and also at the homes of participating families, or other facilities. Families take turns to host and support our programs every week.

The programs start with children invoking our special deities we use in the programs. Every child as well as parents in rotation lead bhajans and sankirtans. They learn the philosophy and new slokas every week, which they memorize and recite them in the subsequent classes.

The main part of our program is the Hari Katha. These feed new bhajans, slokas and presentations. They are prepared from the planned curriculum that includes discussion of philosophies, tattvas and pastimes related to Sri Radha Krishna and Sri

Caitanya Mahaprabhu. We record and archive the harikathas and presentations so that the children can review the classes when needed. Our materials are also widely used in other satsang programs elsewhere.

Every year is divided into two semesters having unique curriculum. Every week, the children will be given tests and homework to complete based on what they learned. All the harikathas are also posted on youtube and on our web site to access.

For the interest of our children, we have developed a special interactive game called 'Gokul Jeopardy!'. We play this periodically to test what the children have learned.

We use a point-based system where the children earn points for attendance, sloka recitation, test submission, presentations and other special achievements. Each semester ends with a sloka competition and an award ceremony where we recognize and honor every child as well as the outstanding children.

In every semester, our children are expected to prepare and give at least one presentation on any Krishna Consciousness related topic. These presentations help them in building self-confidence, communication skills, getting rid of stage fears and thus they will be also doing best in their schools and colleges. All the presentations are recorded and hosted in the youtube.

Every semester we invite Vaishnava sadhus from different places mainly from Vrindavan. These sadhus conduct weekend programs in the conventional traditional style.

Most of our children and parents observe Ekadasi. Children are able to track their observances and every time a child completes observing ten ekadasis, a special gift is awarded in appreciation and for encouragement.

All of our children and parents are expected to chant the holy names of Lord , the maha mantra every day:

*hare krsna hare krsna, krsna krsna hare hare  
hare rama hare rama, rama rama hare hare*

Our children also lead several projects for the welfare of the community, some of which include Book Distribution, Charity for Cow Protection, Food for the Poor, Gokul Library, Prison Ministry, Health & Environment and so on. Every semester they setup goals and work on achieving the goals.

Prison Ministry is a special project under IPBYS founded by Srila Gurudeva. Under this, we communicate and help the prison inmates by sending them books, course materials and by writing to them. This project is drastically changing the lives of many prison inmates. Volunteers from our organization also directly visit local prisons and conduct programs for the benefit of prisoners.

“Bhakti Academy”, previously called ‘iGokulam’ is an educational division specially designed for the need of our children and parents. Through this we teach our children to develop various skills which also include character development, leadership skills, time management, effective communications, learning sanskrit and others.

Through Bhakti Academy, our children also develop mobile apps on Krishna Consciousness. They are developed for iOS and Android devices.

As annual accomplishments, our children stage dramas and dances as public events. Every year they produce yearly bhajan CD albums from the bhajans they have learned in the classes. We have a dedicated studio (Gokul Studio) to compose bhajans, record sloka tunes, and record tracks for dramas and to produce annual CD albums.

We engage our children to participate very closely in our regular weekly programs so that they have a sense of ownership and get recognized for their efforts. This helps them to learn leadership, punctuality, and responsibility. Unique responsibilities are assigned to the children and the volunteering parents. Our

children are very unique because not only they are very high achievers in educational activities, but are also dedicated in serving Krishna and devotees.

Our children and parents also learn how to play various music instruments for singing bhajans and kirtans. We also conduct courses for learning mridanga, keyboards, tabla and other musical instruments so that they can actively participate in the satsang programs by playing with their instruments they have learned.

We have a special group called 'Vadya' is similar to an orchestra of Gokul Bhajan. They routinely perform in our local programs and also in public programs.

We also have an honorary group called Bhajaneeya to which the members are selected by their singing skills and interest. They also produce special youth bhajans and are the main contributors of our yearly bhajan CDs.

Our organization has the following web sites and other public hostings to support our satsang and programs:

### **1. [www.gokulbhajan.com](http://www.gokulbhajan.com)**

This is our central web site for the public with most of the information such as:

- Our philosophy and sadhana
